NEW EVENT VENUE OPENING AT STATION PARK

Fountain View Event Venue will open in December and will be managed by NOAH'S

FARMINGTON, Utah — December 6, 2016 – Fountain View Event Venue will open in December at Station Park, becoming the lifestyle center's newest location for weddings and events. The 10,000-square-foot event space is located on the second floor above Twigs Bistro & Martini Bar and can hold up to 300 people.

A Grand Opening event will be held on Saturday, January 21 from 11am to 3pm. The event is free and open to the public and will feature live music and free food and drinks.

Fountain View Event Venue (164 N. West Promontory, Suite 200, Farmington, UT 84025) is undergoing extensive renovations and construction is expected to be complete by mid-December. The space, which previously sat empty, has large arched windows overlooking Station Park's Fountain Square and seasonal outdoor ice skating rink.

"We grow more and more excited every day and we can't wait to open our doors to the public for our Grand Opening in January," said Alex Musil, the Event Venue Director for Fountain View. "In addition to the beautiful high-end design of the building, we think that the events at Fountain View will have a really special energy because of our location at Station Park."

The venue features a 4,000-square-foot Main Hall as well as two smaller rooms that can serve as the Bride's Room and Groom's Room for weddings or as conference rooms for meetings and smaller events. Tables, chairs, tablecloths, customizable hue lighting and audiovisual equipment are included with every room rental. The venue also boasts an open-vendor policy, meaning that customers can bring in their own vendors, including the caterer of their choice.

Fountain View will be managed by NOAH'S Event Venue. NOAH'S is the largest event venue corporation in the country and is headquartered in South Jordan. NOAH'S currently operates 30 eponymous event venues nationwide including venues in Lindon and South Jordan. NOAH'S hosts more than 10,000 events across the country every year. Fountain View is the first event venue to be managed by NOAH'S that does not feature the familiar name.

"Although the gorgeous view and the nearby amenities and energy of Station Park are unique to Fountain View, customers and guests can expect the same attention to detail and unmatched customer service that they would find at any NOAH'S across the country," said Kirsten Mussi, Vice President of Public Relations for Noah Corporation.

The large second-story arched windows overlook Station Park's Fountain Square. Guests at the aptly named Fountain View will be treated to a view of the hourly water show that includes LED lighting, music and dancing waters. The fountain is a multimillion-dollar project designed and created by the same company who built the "World of Color" at Disney's California Adventure Park.

"I often think about wedding guests dancing the night away by the huge windows in this upscale, second-story space when the water show starts up," said Mussi. "I think about the kids crowding around the windows to watch or the energy that it will infuse into a formal cocktail party as the fountains dance in the background. There won't be anything like it."
